PREMIUM SERVICE

K2
PLANT

MINING & CIVIL EQUIPMENT

OUR VISION

To be the fleet partner of choice with a reputation for enabling you to deliver successful projects.

About

K2 Plant is a growing Plant Hire business with a fleet of new and low hour equipment. Our equipment choices are intended to cover the mining and civil industries.

K2 Plant Hire was established in 2021 by Nick Harwood, an executive with significant experience in the industry including the former Orionstone hire business.

We are based in Brisbane with a network of partners and facilities across various strategic locations in Queensland. We welcome enquiries from all parts of Qld but not limited to exploring opportunities in all other States.

Our fleet currently comprises approx. 25 machines which we have typically bought to meet customer needs. We periodically place orders for new machines to ensure we can make certain models available during times of shortage. We currently have orders in place for delivery of various items throughout 2025.

We pride ourselves on quick response times, developing strong working relationships and offering highly reliable equipment. This is designed to provide you with the confidence you need for the planning and delivery of your projects.

OUR CORE VALUES

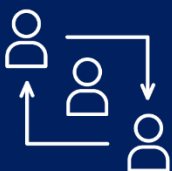

QUALITY SERVICE

Delivering on our commitment to you is at the forefront of everything we do.

RELIABLE AND AVAILABLE

We will ensure our customers can maximise performance with reliable equipment.

STRONG RELATIONSHIPS

The confidence and trust you place in us drives our performance.

INTEGRITY

Our actions will demonstrate the honesty and trust our colleagues and customers expect of us.

SIMPLICITY

We strive for simplicity in everything we do.

BENEFITS OF DRY HIRE

Using a combination of owned equipment and hired equipment allows you to allocate your finite capital to certain categories or items of equipment where you expect longer term use.

WHY CHOOSE US

We provide equipment that you can rely upon. As we continue to grow, our team grows, expanding and enhancing our capability. Our responsive team prioritises your success, providing high quality rental solutions that ensure your projects progress on time.

We're building a strong track record of satisfied clients, and are committed to investing in new and lower equipment. Experience the K2 Plant difference – let us partner with you on your next project and see how we can fuel your success.

To minimise downtime, our equipment is subject to an in-depth pre-hire inspection and is regularly serviced in accordance with OEM standards. Any significant maintenance work is undertaken by our selected partners. Most of the fleet is connected to the OEM systems, enabling regular reporting on performance.

Delivering on our commitment to you is at the forefront of everything we do. We deliver all machine hire services as promised and on time so you can benefit from maximised project productivity and profitability.

Key Personnel

Founder & Managing Director

A former Partner in a Tier 1 consulting firm and executive/CFO at Orionstone, Nick has spent much of his career working with mining services businesses, developing a deep understanding of the sector and a strong network of industry contacts.

Nick Harwood is the Founder and Managing Director of K2 Plant and Fountain Group, an advisory firm supporting family businesses in the mining sector.

With extensive industry expertise and a passion for helping businesses succeed, Nick has grown K2 Plant from a single articulated dump truck into a trusted fleet partner known for high availability and premium service.

General Manager

With a focus on operational excellence and client satisfaction, he brings a wealth of expertise and vision to the company, ensuring it remains at the forefront of the industry.

Beyond his professional achievements, Lucas is a proud husband to Nicole, whose love for their Border Collies adds a warm, playful dynamic to their home. He is also the father of Ella, an inspiring 19 year old known for her strength, wisdom, and determination.

With a balance of professional ambition and personal devotion, Lucas embodies the values of leadership, resilience, and family.

Lucas Young is a dedicated leader and General Manager at K2 Plant Hire, bringing over a decade of experience in business development, account management with Tier 1 clients, and process improvement. Known for his innovative approach, Lucas specialises in delivering innovative solutions for the mining, infrastructure, and civil sectors.

OUR FLEET

Our fleet comprises new and low hour models from the leading OEMs including Caterpillar, Volvo, Komatsu and Hitachi.

Our business model always seeks to buy the right equipment to meet customer needs while selling equipment when it reaches around 7,000 hours. Below is a snapshot of our current fleet, as we regularly source additional equipment, expect this fleet mix will continually expand.
